

APPROVED
by Decision No. 299 of the Customs
Union Commission
dated May 28, 2010

SINGLE LIST

of goods subject to sanitary-and-epidemiologic supervision (control) at the customs border and on the customs territory of the Customs Union

(as amended by Decisions of the Customs Union Commission No 341 of 17.08.2010,
N 383 of 20.09.2010, N 432 of 14.10.2010, N 456 of 18.11.2010)

Part I.

LIST

of goods subject to sanitary-and-epidemiologic supervision (control)

1. Foodstuffs (products in natural or processed form used for human food) including those derived from genetically engineered or modified (transgenic) organisms (from the following groups of the single Commodity Nomenclature of Foreign Economic Activity of the Customs Union (FEACN CU): 02-05, 07-09, 11-25, 27-29, 32-34, 35).
2. Goods for children: toys and games, bed-linen, clothing, footwear, learning aids, furniture, baby carriages, bags (satchels, backpacks, briefcases and so on), artificial polymer and synthetic materials for manufacturing goods for children (from the following groups of FEACN CU: 32, 34, 39, 40, 42-44, 46, 48-56, 60-65, 87, 94, 95).
3. Materials, equipment, substances, devices used in utility and drinking water supply and in sewage treatment, in swimming pools (from the following groups of FEACN CU: 38-40, 48, 84, 85).
4. Perfumery and cosmetic products, oral hygiene products (from group 33 of FEACN CU).
5. Chemical and petrochemical products for industrial purposes, household chemical products (from the following groups of FEACN CU: 32-34, 38).
6. Polymer and synthetic materials intended for use in construction, in transport, as well as in production of furniture and other household articles; furniture; textile sewing and knitted materials containing chemical fibre and textile auxiliaries; artificial and synthetic leathers and textile materials for producing clothing and footwear (from the following groups of FEACN CU: 32, 39, 40, 42-44, 46, 48, 50, 51, 53, 55- 59).

7. Machinery and instrumentation products for industrial, medical and household purposes, except for spare parts of transport vehicles and household appliances (apart from those contacting with drinking water and foodstuffs) (from the following groups of FEACN CU: 38, 84, 85, 90).

8. Products of the printing industry: educational publications and aids for general secondary and higher education institutions, books and magazines for children and adolescents (from the following groups of FEACN CU: 48, 49).

9. Products from natural raw materials undergoing treatment in the process of production (colouring, impregnation and so on) (from the following groups of FEACN CU: 43, 44, 46, 50-53).

10. Materials for products (products) contacting with human skin, clothing, footwear (from the following groups of FEACN CU: 39, 40, 42, 43, 50-60).

11. Products, articles that are a source of ionizing radiation including those generating it, as well as products and goods containing radioactive substances (from the following groups of FEACN CU: 25, 26, 28, 68, 69, 72, 74-76, 78-81, 84, 87).

12. Building raw materials and supplies in relation to which hygienic standards are set regulating the content of radioactive substances, including industrial waste for recycling and use in the national economy, ferrous and non-ferrous metals (scrap metal) (from the following groups of FEACN CU: 25, 26, 28, 68, 69, 72, 74-76, 78-81, 84, 87).

13. Tobacco products and tobacco raw materials (from group 24 of FEACN CU).

14. Individual protection articles (from the following groups of FEACN CU: 39, 40, 64).

15. Pesticides and agrochemicals (from the following groups of FEACN CU: 31, 38).

16. Materials, products and equipment contacting with foodstuffs (from the following groups of FEACN CU: 39, 44, 45, 48, 63, 70, 73, 76).

17. Equipment, materials for air handling, air cleaning and filtration (from the following groups of FEACN CU: 38-40, 48, 84, 85).

18. De-icing reagents (from group 38 of FEACN CU).

19. Other goods in relation to which one of the Parties has introduced temporary sanitary measures (from the following groups of FEACN CU: 02-96).

Part II.

LIST

of goods subject to state registration

1. Mineral water (natural table water, therapeutic table water, therapeutic water), bottled drinking water packaged in containers (including those to be used for baby food), tonic beverages, alcoholic beverages including low alcoholic products, beer.

2. Specialized foodstuffs, including food products for children, food products for pregnant and nursing women, dietary nutrition (therapeutic and prophylactic) products, nutrition products for athletes (hereinafter – specialized foodstuffs); biologically active dietary supplements, raw materials for production of biologically active dietary supplements, organic products.

3. Foodstuffs derived from genetically engineered or modified (transgenic) organisms, including genetically modified microorganisms.

4. Food additives, complex food additives, flavouring agents, plant extracts as flavor substances and raw components, starter cultures of microorganisms and bacterial starter cultures, technological aids including enzymatic agents.

5. Cosmetic products; oral hygiene products.

6. Disinfection, disinsection and deratization agents (for use in the home, at therapeutic and prophylactic institutions and other facilities (except for those used in veterinary medicine)).

7. Household chemical products.

8. Potentially hazardous chemical and biological substances and preparations made on their basis, constituting potential hazard to humans (except for medicinal preparations), individual substances (compounds) of natural or artificial origin that can have adverse effects on human health and environment in the context of production, use, transportation, processing and in household use.

9. Materials, equipment, facilities and other technological tools of water conditioning, intended for use in utility and drinking water supply systems.

10. Personal hygienic items for children and adults; articles for everyday use by children under 3 years old: tableware and products used for feeding children, articles for child hygiene care; clothing for children (first layer).

11. Products intended for contact with foodstuffs (except for tableware, eating utensils, technological equipment).

Import and circulation of goods specified in Clauses 1-11 of the present Part is carried out upon availability of a document confirming their safety in accordance with Clauses 17 and 30 of the Regulations for procedure of state sanitary-and-

epidemiologic supervision (control) over individuals and transport vehicles crossing the Customs Union customs border, controlled goods moved across the Customs Union customs border and on the Customs Union customs territory.

Raw material, active ingredients, intended by the manufacturer (producer) only for the production of perfumery and cosmetic products, household chemical products, plant-protecting, fumigation, pest control and extermination products, as well as pharmaceutical products, are not subject to state registration.
(as amended by Decision of the Customs Union Commission N 456 of 18.11.2010)

Information contained in transport (shipping) and (or) commercial documents, or in the manufacturer's information letter, and confirming the products' area of application specified in Part II and III of the Single List of Goods, serves as the basis for determining whether controlled goods belong to Part II and III of the Single List of Goods when importing and distributing them on the Customs Union customs territory.
(paragraph was added by Decision of the Customs Union Commission N 432 of 14.10.2010)

Goods specified in Clauses 1 - 11 of the present Part, included in the following comprehensive headings of the FEACN CU, manufactured for the first time on the Customs Union customs territory, as well as imported for the first time to the Customs Union customs territory, are subject to state registration:
(as amended by Decision of the Customs Union Commission No 341 of 17.08.2010)

Commodity classification in accordance with the FEACN CU code	Commodity short name *
Group 02 Meat and edible meat offal	
From 0210	Meat and edible meat offal, salted, in brine, dried or smoked, that are made with the use of genetically engineered or modified (transgenic) organisms and (or) are (according to the manufacturer's (producer's) documents) specialized foodstuffs, biologically active dietary supplements or raw material for their production, organic products, food additives, complex food additives, flavoring agents; edible flours and meals of meat or meat offal, that are made with the use of genetically engineered or modified (transgenic) organisms and (or) are (according to the manufacturer's (producer's) documents) specialized foodstuffs, biologically active dietary supplements or raw material for their production, organic products, food additives, complex food additives,

Commodity classification in accordance with the FEACN CU code	Commodity short name *
	flavoring agents
Group 03 Fish and crustaceans, molluscs and other aquatic invertebrates	
From 0305	<p>Fish, dried, salted or in brine, that is made with the use of genetically engineered or modified (transgenic) organisms and (or) is (according to the manufacturer's (producer's) documents) specialized foodstuffs, biologically active dietary supplements or raw material for their production, organic products, food additives, complex food additives, flavoring agents; smoked fish, whether or not cooked before or during the smoking process, that is made with the use of genetically engineered or modified (transgenic) organisms and (or) is (according to the manufacturer's (producer's) documents) specialized foodstuffs, biologically active dietary supplements or raw material for their production, organic products, food additives, complex food additives, flavoring agents; flours, meals and pellets of fish, fit for human consumption, that are made with the use of genetically engineered or modified (transgenic) organisms and (or) are (according to the manufacturer's (producer's) documents) specialized foodstuffs, biologically active dietary supplements or raw material for their production, organic products, food additives, complex food additives, flavoring agents</p>
From 0306	<p>Crustaceans, whether in shell or not, dried, salted or in brine, except for fresh, live, chilled, frozen, that are made with the use of genetically engineered or modified (transgenic) organisms and (or) are (according to the manufacturer's (producer's) documents) specialized foodstuffs, biologically active dietary supplements or raw material for their production, organic products, food additives, complex food additives, flavoring agents; crustaceans, in shell, cooked by steaming or by boiling in water, dried, salted or in brine, except for fresh, chilled, non-chilled, frozen, that are made with the use of genetically engineered or modified (transgenic) organisms and (or) are (according to the manufacturer's (producer's) documents) specialized foodstuffs, biologically active dietary supplements or raw material for their production, organic products, food additives, complex food additives, flavoring agents; flours, meals and pellets of crustaceans, fit for human consumption, that are made with the use of genetically engineered or modified (transgenic) organisms and (or) are (according to the manufacturer's (producer's) documents) specialized foodstuffs, biologically active dietary supplements or raw material for their production, organic products, food additives, complex food additives, flavoring agents</p>

Commodity classification in accordance with the FEACN CU code	Commodity short name *
From 0307	Molluscs, whether in shell or not, dried, salted or in brine, except for fresh, live, chilled, frozen, that are made with the use of genetically engineered or modified (transgenic) organisms and (or) are (according to the manufacturer's (producer's) documents) specialized foodstuffs, biologically active dietary supplements or raw material for their production, organic products, food additives, complex food additives, flavoring agents ; aquatic invertebrates other than crustaceans and molluscs, dried, salted or in brine, except for fresh, live, chilled, frozen, that are made with the use of genetically engineered or modified (transgenic) organisms and (or) are (according to the manufacturer's (producer's) documents) specialized foodstuffs, biologically active dietary supplements or raw material for their production, organic products, food additives, complex food additives, flavoring agents ; flours, meals and pellets of aquatic invertebrates other than crustaceans, fit for human consumption, that are made with the use of genetically engineered or modified (transgenic) organisms and (or) are (according to the manufacturer's (producer's) documents) specialized foodstuffs, biologically active dietary supplements or raw material for their production, organic products, food additives, complex food additives, flavoring agents
Group 04 Dairy produce; birds' eggs; natural honey; edible products of animal origin, not elsewhere specified or included	
From 0401	Milk and cream (except for crude and feed milk), not concentrated nor containing added sugar or other sweetening matter, that are made with the use of genetically engineered or modified (transgenic) organisms and (or) are (according to the manufacturer's (producer's) documents) specialized foodstuffs, biologically active dietary supplements or raw material for their production, organic products, food additives, complex food additives, flavoring agents
From 0402	Milk and cream, concentrated or containing added sugar or other sweetening matter, that are made with the use of genetically engineered or modified (transgenic) organisms and (or) are (according to the manufacturer's (producer's) documents) specialized foodstuffs, biologically active dietary supplements or raw material for their production, organic products, food additives, complex food additives, flavoring agents

Commodity classification in accordance with the FEACN CU code	Commodity short name *
From 0403	Buttermilk, curdled milk and cream, yogurt, kephir and other fermented or acidified milk and cream, whether or not concentrated or containing added sugar or other sweetening matter or flavoured or containing added fruits, nuts or cocoa, that are made with the use of genetically engineered or modified (transgenic) organisms and (or) are (according to the manufacturer's (producer's) documents) specialized foodstuffs, biologically active dietary supplements or raw material for their production, organic products, food additives, complex food additives, flavoring agents
From 0404	Whey, whether or not concentrated or containing added sugar or other sweetening matter, that is made with the use of genetically engineered or modified (transgenic) organisms and (or) is (according to the manufacturer's (producer's) documents) specialized foodstuffs, biologically active dietary supplements or raw material for their production, organic products, food additives, complex food additives, flavoring agents ; products consisting of natural milk constituents, whether or not containing added sugar or other sweetening matter, not elsewhere specified or included, that are made with the use of genetically engineered or modified (transgenic) organisms and (or) are (according to the manufacturer's (producer's) documents) specialized foodstuffs, biologically active dietary supplements or raw material for their production, organic products, food additives, complex food additives, flavoring agents
From 0405	Butter and other fats and oils derived from milk, that are made with the use of genetically engineered or modified (transgenic) organisms and (or) are (according to the manufacturer's (producer's) documents) specialized foodstuffs, biologically active dietary supplements or raw material for their production, organic products, food additives, complex food additives, flavoring agents ; dairy spreads, that are made with the use of genetically engineered or modified (transgenic) organisms and (or) are (according to the manufacturer's (producer's) documents) specialized foodstuffs, biologically active dietary supplements or raw material for their production, organic products, food additives, complex food additives, flavoring agents
From 0406	Cheese and curd, that are made with the use of genetically engineered or modified (transgenic) organisms and (or) are (according to the manufacturer's (producer's) documents) specialized foodstuffs, biologically active dietary supplements or raw material for their production, organic products, food additives, complex food additives,

Commodity classification in accordance with the FEACN CU code	Commodity short name *
	flavoring agents
From 0407 00	Birds' eggs, in shell, preserved or cooked, fit for human consumption, that are made with the use of genetically engineered or modified (transgenic) organisms and (or) are (according to the manufacturer's (producer's) documents) specialized foodstuffs, biologically active dietary supplements or raw material for their production, organic products, food additives, complex food additives, flavoring agents
From 0408 19 810 0	Egg yolks, liquid, fit for human consumption, that are made with the use of genetically engineered or modified (transgenic) organisms and (or) are (according to the manufacturer's (producer's) documents) specialized foodstuffs, biologically active dietary supplements or raw material for their production, organic products, food additives, complex food additives, flavoring agents
From 0408 19 890 0	Egg yolks, including frozen, fit for human consumption, that are made with the use of genetically engineered or modified (transgenic) organisms and (or) are (according to the manufacturer's (producer's) documents) specialized foodstuffs, biologically active dietary supplements or raw material for their production, organic products, food additives, complex food additives, flavoring agents
From 0408 99 800 0	Birds' eggs, not in shell, cooked by steaming or by boiling in water, moulded, frozen or otherwise preserved, whether or not containing added sugar or other sweetening matter, fit for human consumption, that are made with the use of genetically engineered or modified (transgenic) organisms and (or) are (according to the manufacturer's (producer's) documents) specialized foodstuffs, biologically active dietary supplements or raw material for their production, organic products, food additives, complex food additives, flavoring agents
From 0409 00 000 0	Natural honey, that is made with the use of genetically engineered or modified (transgenic) organisms and (or) is (according to the manufacturer's (producer's) documents) specialized foodstuffs, biologically active dietary supplements or raw material for their production, organic products, food additives, complex food additives, flavoring agents
From 0410 00 000 0	Edible products of animal origin, fit for human consumption, not elsewhere specified, that are made with the use of genetically engineered or modified (transgenic) organisms and (or) are (according to the manufacturer's (producer's) documents) specialized foodstuffs,

Commodity classification in accordance with the FEACN CU code	Commodity short name *
	biologically active dietary supplements or raw material for their production, organic products, food additives, complex food additives, flavoring agents
Group 07 Edible vegetables and certain roots and tubers	
From 0712	Dried vegetables, whole, cut, sliced, broken or in powder, but not further prepared, that are made with the use of genetically engineered or modified (transgenic) organisms and (or) are (according to the manufacturer's (producer's) documents) specialized foodstuffs, biologically active dietary supplements or raw material for their production, organic products, food additives, complex food additives, flavoring agents
From 0713	Dried leguminous vegetables, shelled, whether or not skinned or split, that are made with the use of genetically engineered or modified (transgenic) organisms and (or) are (according to the manufacturer's (producer's) documents) specialized foodstuffs, biologically active dietary supplements or raw material for their production, organic products, food additives, complex food additives, flavoring agents
From 0714	Manioc, arrowroot, salep, Jerusalem artichokes, sweet potatoes and similar roots and tubers with high starch or inulin content, dried, whether or not sliced or in the form of pellets, that are made with the use of genetically engineered or modified (transgenic) organisms and (or) are (according to the manufacturer's (producer's) documents) specialized foodstuffs, biologically active dietary supplements or raw material for their production, organic products, food additives, complex food additives, flavoring agents ; sago pith that is made with the use of genetically engineered or modified (transgenic) organisms and (or) is (according to the manufacturer's (producer's) documents) specialized foodstuffs, biologically active dietary supplements or raw material for their production, organic products, food additives, complex food additives, flavoring agents
Group 08 Edible fruit and nuts; peel of citrus fruit or melons	
From 0801	Coconuts, Brazil nuts and cashew nuts, dried, whether or not shelled or peeled, that are made with the use of genetically engineered or modified (transgenic) organisms and (or) are (according to the manufacturer's (producer's) documents) specialized foodstuffs, biologically active dietary supplements or raw material for their production, organic products, food additives, complex food additives, flavoring agents

Commodity classification in accordance with the FEACN CU code	Commodity short name *
From 0802	Other nuts, dried, whether or not shelled or peeled, that are made with the use of genetically engineered or modified (transgenic) organisms and (or) are (according to the manufacturer's (producer's) documents) specialized foodstuffs, biologically active dietary supplements or raw material for their production, organic products, food additives, complex food additives, flavoring agents
From 0803 00	Bananas, including plantains, dried, that are made with the use of genetically engineered or modified (transgenic) organisms and (or) are (according to the manufacturer's (producer's) documents) specialized foodstuffs, biologically active dietary supplements or raw material for their production, organic products, food additives, complex food additives, flavoring agents
From 0804	Dates, figs, pineapples, avocados, guavas, mangoes and mangosteens, dried, that are made with the use of genetically engineered or modified (transgenic) organisms and (or) are (according to the manufacturer's (producer's) documents) specialized foodstuffs, biologically active dietary supplements or raw material for their production, organic products, food additives, complex food additives, flavoring agents
From 0805	Citrus fruit, dried, that is made with the use of genetically engineered or modified (transgenic) organisms and (or) is (according to the manufacturer's (producer's) documents) specialized foodstuffs, biologically active dietary supplements or raw material for their production, organic products, food additives, complex food additives, flavoring agents
From 0806	Grapes, dried, that are made with the use of genetically engineered or modified (transgenic) organisms and (or) are (according to the manufacturer's (producer's) documents) specialized foodstuff, a biologically active dietary supplement or raw material for their production, an organic product
From 0811	Fruit and nuts, cooked by steaming or boiling in water, whether or not containing added sugar or other sweetening matter, that are made with the use of genetically engineered or modified (transgenic) organisms and (or) are (according to the manufacturer's (producer's) documents) specialized foodstuffs, biologically active dietary supplements or raw material for their production, organic products, food additives, complex food additives, flavoring agents

Commodity classification in accordance with the FEACN CU code	Commodity short name *
From 0812	Fruit and nuts, provisionally preserved (for example, by sulphur dioxide gas, in brine, in sulphur water or in other preservative solutions), but unsuitable in that state for immediate consumption, that are made with the use of genetically engineered or modified (transgenic) organisms and (or) are (according to the manufacturer's (producer's) documents) specialized foodstuffs, biologically active dietary supplements or raw material for their production, organic products, food additives, complex food additives, flavoring agents
From 0813	Fruit, dried, other than that of headings 0801 to 0806, that is made with the use of genetically engineered or modified (transgenic) organisms and (or) is (according to the manufacturer's (producer's) documents) specialized foodstuffs, biologically active dietary supplements or raw material for their production, organic products, food additives, complex food additives, flavoring agents ; mixtures of nuts or dried fruits of this group, that are made with the use of genetically engineered or modified (transgenic) organisms and (or) are (according to the manufacturer's (producer's) documents) specialized foodstuffs, biologically active dietary supplements or raw material for their production, organic products, food additives, complex food additives, flavoring agents
From 0814 00 000 0	Peel of citrus fruit or melons (including watermelons), dried or provisionally preserved in brine, in sulphur water or in other preservative solutions, that is made with the use of genetically engineered or modified (transgenic) organisms and (or) is (according to the manufacturer's (producer's) documents) specialized foodstuffs, biologically active dietary supplements or raw material for their production, organic products, food additives, complex food additives, flavoring agents
Group 09 Coffee, tea, mate or Paraguay tea, and spices (used for food and for foodstuffs manufacturing)	
From 0901	Coffee, whether or not roasted or decaffeinated, that is made with the use of genetically engineered or modified (transgenic) organisms and (or) is (according to the manufacturer's (producer's) documents) specialized foodstuffs, biologically active dietary supplements or raw material for their production, organic products, food additives, complex food

Commodity classification in accordance with the FEACN CU code	Commodity short name *
	additives, flavoring agents ; coffee substitutes containing coffee in any proportion, that are made with the use of genetically engineered or modified (transgenic) organisms and (or) are (according to the manufacturer's (producer's) documents) specialized foodstuffs, biologically active dietary supplements or raw material for their production, organic products, food additives, complex food additives, flavoring agents
From 0902	Tea, whether or not flavoured, that is made with the use of genetically engineered or modified (transgenic) organisms and (or) is (according to the manufacturer's (producer's) documents) specialized foodstuff, a biologically active dietary supplement or raw material for their production, an organic product
From 0903 00 000 0	Mate or Paraguay tea, that is made with the use of genetically engineered or modified (transgenic) organisms and (or) is (according to the manufacturer's (producer's) documents) specialized foodstuffs, biologically active dietary supplements or raw material for their production, organic products, food additives, complex food additives, flavoring agents
From 0904	Pepper of the genus Piper, that is made with the use of genetically engineered or modified (transgenic) organisms and (or) is (according to the manufacturer's (producer's) documents) specialized foodstuffs, biologically active dietary supplements or raw material for their production, organic products, food additives, complex food additives, flavoring agents ; dried or crushed or ground fruits of the genus Capsicum or of the genus Pimenta, that are made with the use of genetically engineered or modified (transgenic) organisms and (or) are (according to the manufacturer's (producer's) documents) specialized foodstuffs, biologically active dietary supplements or raw material for their production, organic products, food additives, complex food additives, flavoring agents
From 0905 00 000 0	Vanilla, that is made with the use of genetically engineered or modified (transgenic) organisms and (or) is (according to the manufacturer's (producer's) documents) specialized foodstuffs, biologically active dietary supplements or raw material for their production, organic products, food additives, complex food additives, flavoring agents
From 0906	Cinnamon and cinnamon-tree flowers, that are made with the use of

Commodity classification in accordance with the FEACN CU code	Commodity short name *
	genetically engineered or modified (transgenic) organisms and (or) are (according to the manufacturer's (producer's) documents) specialized foodstuffs, biologically active dietary supplements or raw material for their production, organic products, food additives, complex food additives, flavoring agents
From 0907 00 000 0	Cloves (whole fruit, cloves and stems), that are made with the use of genetically engineered or modified (transgenic) organisms and (or) are (according to the manufacturer's (producer's) documents) specialized foodstuff
From 0908	Nutmeg, mace and cardamoms, that are made with the use of genetically engineered or modified (transgenic) organisms and (or) are (according to the manufacturer's (producer's) documents) specialized foodstuffs, biologically active dietary supplements or raw material for their production, organic products, food additives, complex food additives, flavoring agents
From 0909	Seeds of anise, badian, fennel, coriander, cumin or caraway, that are made with the use of genetically engineered or modified (transgenic) organisms and (or) are (according to the manufacturer's (producer's) documents) specialized foodstuffs, biologically active dietary supplements or raw material for their production, organic products, food additives, complex food additives, flavoring agents; juniper berries, that are made with the use of genetically engineered or modified (transgenic) organisms and (or) are (according to the manufacturer's (producer's) documents) specialized foodstuffs, biologically active dietary supplements or raw material for their production, organic products, food additives, complex food additives, flavoring agents
From 0910	Ginger, saffron, turmeric (curcuma), thyme, bay leaves, curry and other spices, that are made with the use of genetically engineered or modified (transgenic) organisms and (or) are (according to the manufacturer's (producer's) documents) specialized foodstuffs, biologically active dietary supplements or raw material for their production, organic products, food additives, complex food additives, flavoring agents
Group 11	
Products of the milling industry; malt; starches; inulin; wheat gluten	
From 1101 00	Wheat or meslin flour packaged for retail sale (used for food and foodstuffs)

Commodity classification in accordance with the FEACN CU code	Commodity short name *
	manufacturing), that is made with the use of genetically engineered or modified (transgenic) organisms and (or) is (according to the manufacturer's (producer's) documents) specialized foodstuffs, biologically active dietary supplements or raw material for their production, organic products, food additives, complex food additives, flavoring agents
From 1102	Cereal flours other than of wheat or meslin (used for food and foodstuffs manufacturing), that are made with the use of genetically engineered or modified (transgenic) organisms and (or) are (according to the manufacturer's (producer's) documents) specialized foodstuff, a biologically active dietary supplement or raw material for their production, an organic product
From 1103	Cereal groats, meal and pellets (used for food and foodstuffs manufacturing), that are made with the use of genetically engineered or modified (transgenic) organisms and (or) are (according to the manufacturer's (producer's) documents) specialized foodstuffs, biologically active dietary supplements or raw material for their production, organic products, food additives, complex food additives, flavoring agents
From 1105	Flour, meal, powder, flakes, granules and pellets of potatoes (used for food and foodstuffs manufacturing) that are made with the use of genetically engineered or modified (transgenic) organisms and (or) are (according to the manufacturer's (producer's) documents) specialized foodstuffs
From 1106	Flour, meal and powder of the dried leguminous vegetables of heading 0713, of sago or of roots or tubers of heading 0714 or of the products of Group 8 (used for food and for foodstuffs manufacturing) that are made with the use of genetically engineered or modified (transgenic) organisms and (or) are (according to the manufacturer's (producer's) documents) specialized foodstuffs
From 1107	Malt, whether or not roasted, used for food and for foodstuffs manufacturing
From 1108	Starches, that are made with the use of genetically engineered or modified (transgenic) organisms and (or) are (according to the manufacturer's (producer's) documents) specialized foodstuffs, biologically active dietary supplements or raw material for their production, organic products, food additives, complex food additives,

Commodity classification in accordance with the FEACN CU code	Commodity short name *
	flavoring agents; inulin, used for food and for foodstuffs manufacturing
Group 12 Oil seeds and oleaginous fruits; miscellaneous grains, seeds and fruit; industrial or medicinal plants; straw and fodder	
From 1208	Flours and meals of oil seeds or oleaginous fruits, other than those of mustard, that are made with the use of genetically engineered or modified (transgenic) organisms and (or) are (according to the manufacturer's (producer's) documents) specialized foodstuff
From 1210	Hop cones, dried, whether or not ground, powdered or in the form of pellets, intended for use in foodstuffs manufacturing; lupulin, intended for use in foodstuffs manufacturing
From 1212	Locust beans, seaweeds and other algae, sugar beet and sugar cane, dried, whether or not ground; intended for use in foodstuffs manufacturing; fruit stones and kernels and other vegetable products (including unroasted chicory roots of the variety <i>Cichorium intybus sativum</i>) of a kind used primarily for human consumption, not elsewhere specified or included, intended for use in foodstuffs manufacturing
Group 13 Lac; gums, resins and other vegetable saps and extracts	
From 1301	Lac natural unrefined, intended for use in foodstuffs manufacturing; natural gums, resins, gum-resins and oleoresins (for example, balsams), intended for use in foodstuffs manufacturing
From 1302 20	Pectic substances, pectinates and pectates, intended for use in foodstuffs manufacturing
From 1302 31 000 0	Agar-agar, intended for use in foodstuffs manufacturing
From 1302 32	Mucilages and thickeners, whether or not modified, derived from locust beans, locust bean seeds or guar seeds, intended for use in foodstuffs manufacturing
Group 15 Animal or vegetable fats and oils and their cleavage products; prepared edible fats;	

Commodity classification in accordance with the FEACN CU code	Commodity short name *
animal or vegetable waxes	
From 1501 00	Pig fat (including lard) and poultry fat, other than that of heading 0209 or 1503, used for food or for foodstuffs manufacturing, that are made with the use of genetically engineered or modified (transgenic) organisms and (or) are (according to the manufacturer's (producer's) documents) specialized foodstuffs, biologically active dietary supplements or raw material for their production, organic products, food additives, complex food additives, flavoring agents
From 1502 00	Fats of bovine animals, sheep or goats, other than those of heading 1503, used for food or for foodstuffs manufacturing, that are made with the use of genetically engineered or modified (transgenic) organisms and (or) are (according to the manufacturer's (producer's) documents) specialized foodstuffs, biologically active dietary supplements or raw material for their production, organic products, food additives, complex food additives, flavoring agents
From 1503 00	Lard stearin, lard oil, oleostearin, oleo-oil and tallow oil, not emulsified or mixed or otherwise prepared, used for food or for foodstuffs manufacturing, that are made with the use of genetically engineered or modified (transgenic) organisms and (or) are (according to the manufacturer's (producer's) documents) specialized foodstuffs, biologically active dietary supplements or raw material for their production, organic products, food additives, complex food additives, flavoring agents
From 1504	Fats and oils and their fractions, of fish or marine mammals, whether or not refined, but not chemically modified, used for food or for foodstuffs manufacturing, that are made with the use of genetically engineered or modified (transgenic) organisms and (or) are (according to the manufacturer's (producer's) documents) specialized foodstuffs, biologically active dietary supplements or raw material for their production, organic products, food additives, complex food additives, flavoring agents
From 1506 00 000 0	Other animal fats and oils and their fractions, whether or not refined, but not chemically modified, used for food or for foodstuffs manufacturing, that are made with the use of genetically engineered or modified (transgenic) organisms and (or) are (according to the manufacturer's (producer's) documents) specialized foodstuffs, biologically active

Commodity classification in accordance with the FEACN CU code	Commodity short name *
	dietary supplements or raw material for their production, organic products, food additives, complex food additives, flavoring agents
From 1507	Soya-bean oil and its fractions, whether or not refined, but not chemically modified, used in food industry, that are made with the use of genetically engineered or modified (transgenic) organisms and (or) are (according to the manufacturer's (producer's) documents) specialized foodstuffs, biologically active dietary supplements or raw material for their production, organic products, food additives, complex food additives, flavoring agents
From 1508	Groundnut oil and its fractions, whether or not refined, but not chemically modified, used in food industry, that are made with the use of genetically engineered or modified (transgenic) organisms and (or) are (according to the manufacturer's (producer's) documents) specialized foodstuffs, biologically active dietary supplements or raw material for their production, organic products, food additives, complex food additives, flavoring agents
From 1509	Olive oil and its fractions, whether or not refined, but not chemically modified, used in food industry, that are made with the use of genetically engineered or modified (transgenic) organisms and (or) are (according to the manufacturer's (producer's) documents) specialized foodstuffs, biologically active dietary supplements or raw material for their production, organic products, food additives, complex food additives, flavoring agents
From 1510 00	Other oils and their fractions, obtained solely from olives, whether or not refined, but not chemically modified, including blends of these oils or fractions with oils or fractions of heading 1509, used in food industry, that are made with the use of genetically engineered or modified (transgenic) organisms and (or) are (according to the manufacturer's (producer's) documents) specialized foodstuffs, biologically active dietary supplements or raw material for their production, organic products, food additives, complex food additives, flavoring agents
From 1511	Palm oil and its fractions, whether or not refined, but not chemically modified, used in food industry, that are made with the use of genetically engineered or modified (transgenic) organisms and (or) are (according to the manufacturer's (producer's) documents) specialized foodstuffs, biologically active dietary supplements or raw material for their

Commodity classification in accordance with the FEACN CU code	Commodity short name *
	production, organic products, food additives, complex food additives, flavoring agents
From 1512	Sunflower-seed, safflower or cotton-seed oil and fractions thereof, whether or not refined, but not chemically modified, used in food industry, that are made with the use of genetically engineered or modified (transgenic) organisms and (or) are (according to the manufacturer's (producer's) documents) specialized foodstuffs, biologically active dietary supplements or raw material for their production, organic products, food additives, complex food additives, flavoring agents
From 1513	Coconut (copra), palm kernel or babassu oil and fractions thereof, whether or not refined, but not chemically modified, used in food industry, that are made with the use of genetically engineered or modified (transgenic) organisms and (or) are (according to the manufacturer's (producer's) documents) specialized foodstuffs, biologically active dietary supplements or raw material for their production, organic products, food additives, complex food additives, flavoring agents
From 1514	Rape, colza or mustard oil and fractions thereof, whether or not refined, but not chemically modified, used in food industry, that are made with the use of genetically engineered or modified (transgenic) organisms and (or) are (according to the manufacturer's (producer's) documents) specialized foodstuffs, biologically active dietary supplements or raw material for their production, organic products, food additives, complex food additives, flavoring agents
From 1515	Other fixed vegetable fats and oils (including jojoba oil) and their fractions, whether or not refined, but not chemically modified, used in food industry, that are made with the use of genetically engineered or modified (transgenic) organisms and (or) are (according to the manufacturer's (producer's) documents) specialized foodstuffs, biologically active dietary supplements or raw material for their production, organic products, food additives, complex food additives, flavoring agents
From 1516	Animal or vegetable fats and oils and their fractions, partly or wholly hydrogenated, inter-esterified, re-esterified or elaidinised, whether or not refined, but not further prepared, used in food industry, that are made with the use of genetically engineered or modified (transgenic) organisms and (or) are (according to the manufacturer's (producer's) documents) specialized foodstuffs, biologically active dietary supplements or raw

Commodity classification in accordance with the FEACN CU code	Commodity short name *
	material for their production, organic products, food additives, complex food additives, flavoring agents
From 1517	Margarine, that is made with the use of genetically engineered or modified (transgenic) organisms and (or) is (according to the manufacturer's (producer's) documents) specialized foodstuff, a biologically active dietary supplement or raw material for their production, an organic product; edible mixtures or preparations of animal or vegetable fats or oils or of fractions of different fats or oils of this group, other than edible fats or oils or their fractions of heading 1516, that are made with the use of genetically engineered or modified (transgenic) organisms and (or) are (according to the manufacturer's (producer's) documents) specialized foodstuffs, biologically active dietary supplements or raw material for their production, organic products, food additives, complex food additives, flavoring agents
Group 16 Preparations of meat, of fish or of crustaceans, molluscs or other aquatic invertebrates	
From 1601 00	Sausages and similar products, of meat, meat offal or blood, except for uncooked, that are made with the use of genetically engineered or modified (transgenic) organisms and (or) are (according to the manufacturer's (producer's) documents) specialized foodstuffs, biologically active dietary supplements or raw material for their production, organic products, food additives, complex food additives, flavoring agents; food preparations based on these products, except for uncooked, that are made with the use of genetically engineered or modified (transgenic) organisms and (or) are (according to the manufacturer's (producer's) documents) specialized foodstuffs, biologically active dietary supplements or raw material for their production, organic products, food additives, complex food additives, flavoring agents
From 1602	Other prepared or preserved products from meat, meat offal or blood, except for uncooked, that are made with the use of genetically engineered or modified (transgenic) organisms and (or) are (according to the manufacturer's (producer's) documents) specialized foodstuffs, biologically active dietary supplements or raw material for their production, organic products, food additives, complex food additives, flavoring agents

Commodity classification in accordance with the FEACN CU code	Commodity short name *
From 1603 00	Extracts and juices of meat, fish or crustaceans, molluscs or other aquatic invertebrates, that are made with the use of genetically engineered or modified (transgenic) organisms and (or) are (according to the manufacturer's (producer's) documents) specialized foodstuffs, biologically active dietary supplements or raw material for their production, organic products, food additives, complex food additives, flavoring agents
From 1604	Prepared or preserved fish, that is made with the use of genetically engineered or modified (transgenic) organisms and (or) is (according to the manufacturer's (producer's) documents) specialized foodstuffs, biologically active dietary supplements or raw material for their production, organic products, food additives, complex food additives, flavoring agents ; caviar and caviar substitutes prepared from fish eggs, except for raw, frozen, that are made with the use of genetically engineered or modified (transgenic) organisms and (or) are (according to the manufacturer's (producer's) documents) specialized foodstuffs, biologically active dietary supplements or raw material for their production, organic products, food additives, complex food additives, flavoring agents
From 1605	Crustaceans, molluscs and other aquatic invertebrates, prepared or preserved, that are made with the use of genetically engineered or modified (transgenic) organisms and (or) are (according to the manufacturer's (producer's) documents) specialized foodstuffs, biologically active dietary supplements or raw material for their production, organic products, food additives, complex food additives, flavoring agents
Group 17 Sugars and sugar confectionery	
From 1701	Cane or beet sugar and chemically pure sucrose, in solid form, except for raw sugar, that are made with the use of genetically engineered or modified (transgenic) organisms and (or) are (according to the manufacturer's (producer's) documents) specialized foodstuffs, biologically active dietary supplements or raw material for their production, organic products, food additives, complex food additives, flavoring agents

Commodity classification in accordance with the FEACN CU code	Commodity short name *
From 1702	Other sugars, including chemically pure lactose, maltose, glucose and fructose, in solid form, that are made with the use of genetically engineered or modified (transgenic) organisms and (or) are (according to the manufacturer's (producer's) documents) specialized foodstuffs, biologically active dietary supplements or raw material for their production, organic products, food additives, complex food additives, flavoring agents; sugar syrups not containing added flavouring or colouring matter, that are made with the use of genetically engineered or modified (transgenic) organisms and (or) are (according to the manufacturer's (producer's) documents) specialized foodstuffs, biologically active dietary supplements or raw material for their production, organic products, food additives, complex food additives, flavoring agents; artificial honey, whether or not mixed with natural honey, that is made with the use of genetically engineered or modified (transgenic) organisms and (or) is (according to the manufacturer's (producer's) documents) specialized foodstuffs, biologically active dietary supplements or raw material for their production, organic products, food additives, complex food additives, flavoring agents; caramel, that is made with the use of genetically engineered or modified (transgenic) organisms and (or) is (according to the manufacturer's (producer's) documents) specialized foodstuffs, biologically active dietary supplements or raw material for their production, organic products, food additives, complex food additives, flavoring agents
From 1704	Sugar confectionery (including white chocolate), not containing cocoa, that is not medicinal preparations, that is made with the use of genetically engineered or modified (transgenic) organisms and (or) is (according to the manufacturer's (producer's) documents) specialized foodstuffs, biologically active dietary supplements or raw material for their production, organic products, food additives, complex food additives, flavoring agents
Group 18 Cocoa and cocoa preparations	
From 1801 00 000 0	Cocoa beans, whole or broken, roasted, that are made with the use of genetically engineered or modified (transgenic) organisms and (or) are (according to the manufacturer's (producer's) documents) specialized foodstuffs, biologically active dietary supplements or raw material for

Commodity classification in accordance with the FEACN CU code	Commodity short name *
	their production, organic products, food additives, complex food additives, flavoring agents
From 1803	Cocoa paste, whether or not defatted, that is made with the use of genetically engineered or modified (transgenic) organisms and (or) is (according to the manufacturer's (producer's) documents) specialized foodstuffs, biologically active dietary supplements or raw material for their production, organic products, food additives, complex food additives, flavoring agents
From 1804 00 0000	Cocoa butter, fat and oil, that are made with the use of genetically engineered or modified (transgenic) organisms and (or) are (according to the manufacturer's (producer's) documents) specialized foodstuffs, biologically active dietary supplements or raw material for their production, organic products, food additives, complex food additives, flavoring agents
From 1805 00 000 0	Cocoa powder, not containing added sugar or other sweetening matter, that is made with the use of genetically engineered or modified (transgenic) organisms and (or) is (according to the manufacturer's (producer's) documents) specialized foodstuffs, biologically active dietary supplements or raw material for their production, organic products, food additives, complex food additives, flavoring agents
From 1806	Chocolate and other food preparations containing cocoa, that are made with the use of genetically engineered or modified (transgenic) organisms and (or) are (according to the manufacturer's (producer's) documents) specialized foodstuffs, biologically active dietary supplements or raw material for their production, organic products, food additives, complex food additives, flavoring agents
Group 19 Preparations of cereals, flour, starch or milk; pastrycooks' products	
From 1901	Malt extract that is made with the use of genetically engineered or modified (transgenic) organisms and (or) is (according to the manufacturer's (producer's) documents) specialized foodstuffs, biologically active dietary supplements or raw material for their production, organic products, food additives, complex food additives, flavoring agents; food preparations of flour, meal, groats, starch or malt extract, not containing cocoa or containing less than 40 % by weight of

Commodity classification in accordance with the FEACN CU code	Commodity short name *
	cocoa calculated on a totally defatted basis, not elsewhere specified or included, except for doughs for the preparation of bakers' wares of heading 1905, that are made with the use of genetically engineered or modified (transgenic) organisms and (or) are (according to the manufacturer's (producer's) documents) specialized foodstuffs, biologically active dietary supplements or raw material for their production, organic products, food additives, complex food additives, flavoring agents ; food preparations of goods of headings 0401 to 0404, not containing cocoa or containing less than 5 % by weight of cocoa calculated on a totally defatted basis, not elsewhere specified or included, that are made with the use of genetically engineered or modified (transgenic) organisms and (or) are (according to the manufacturer's (producer's) documents) specialized foodstuffs, biologically active dietary supplements or raw material for their production, organic products, food additives, complex food additives, flavoring agents
From 1902	Pasta, whether or not cooked or stuffed (with meat or other substances), that is made with the use of genetically engineered or modified (transgenic) organisms and (or) is (according to the manufacturer's (producer's) documents) specialized foodstuffs, biologically active dietary supplements or raw material for their production, organic products, food additives, complex food additives, flavoring agents
From 1903 00 000 0	Tapioca and substitutes therefor prepared from starch, in the form of flakes, grains, pearls, siftings or similar forms, that are made with the use of genetically engineered or modified (transgenic) organisms and (or) are (according to the manufacturer's (producer's) documents) specialized foodstuffs, biologically active dietary supplements or raw material for their production, organic products, food additives, complex food additives, flavoring agents
From 1904	Prepared foods obtained by the swelling or roasting of cereals or cereal products (for example, corn flakes), that are made with the use of genetically engineered or modified (transgenic) organisms and (or) are (according to the manufacturer's (producer's) documents) specialized foodstuffs, biologically active dietary supplements or raw material for their production, organic products, food additives, complex food additives, flavoring agents ; cereals (other than maize (corn)) in grain form or in the form of flakes or other worked grains (except flour, groats and meal), pre-cooked or otherwise prepared, not elsewhere specified or

Commodity classification in accordance with the FEACN CU code	Commodity short name *
	included, that are made with the use of genetically engineered or modified (transgenic) organisms and (or) are (according to the manufacturer's (producer's) documents) specialized foodstuffs, biologically active dietary supplements or raw material for their production, organic products, food additives, complex food additives, flavoring agents
From 1905	Pastry, biscuits and other bakers' wares, whether or not containing cocoa, that are made with the use of genetically engineered or modified (transgenic) organisms and (or) are (according to the manufacturer's (producer's) documents) specialized foodstuffs, biologically active dietary supplements or raw material for their production, organic products, food additives, complex food additives, flavoring agents; sealing wafers, rice paper and similar products, that are made with the use of genetically engineered or modified (transgenic) organisms and (or) are (according to the manufacturer's (producer's) documents) specialized foodstuffs, biologically active dietary supplements or raw material for their production, organic products, food additives, complex food additives, flavoring agents
Group 20 Preparations of vegetables, fruit, nuts or other parts of plants	
From 2001	Vegetables, fruit, nuts and other edible parts of plants, prepared or preserved by vinegar or acetic acid, that are made with the use of genetically engineered or modified (transgenic) organisms and (or) are (according to the manufacturer's (producer's) documents) specialized foodstuffs, biologically active dietary supplements or raw material for their production, organic products, food additives, complex food additives, flavoring agents
From 2002	Tomatoes prepared or preserved otherwise than by vinegar or acetic acid, that are made with the use of genetically engineered or modified (transgenic) organisms and (or) are (according to the manufacturer's (producer's) documents) specialized foodstuffs, biologically active dietary supplements or raw material for their production, organic products, food additives, complex food additives, flavoring agents
From 2003	Mushrooms and truffles, prepared or preserved otherwise than by vinegar or acetic acid, that are made with the use of genetically engineered or

Commodity classification in accordance with the FEACN CU code	Commodity short name *
	modified (transgenic) organisms and (or) are (according to the manufacturer's (producer's) documents) specialized foodstuffs, biologically active dietary supplements or raw material for their production, organic products, food additives, complex food additives, flavoring agents
From 2005	Other vegetables prepared or preserved otherwise than by vinegar or acetic acid, non-frozen, other than products of heading 2006, that are made with the use of genetically engineered or modified (transgenic) organisms and (or) are (according to the manufacturer's (producer's) documents) specialized foodstuffs, biologically active dietary supplements or raw material for their production, organic products, food additives, complex food additives, flavoring agents
From 2006 00	Vegetables, fruit, nuts, fruit-peel and other parts of plants, preserved by sugar (drained, glaze or crystallised), that are made with the use of genetically engineered or modified (transgenic) organisms and (or) are (according to the manufacturer's (producer's) documents) specialized foodstuffs, biologically active dietary supplements or raw material for their production, organic products, food additives, complex food additives, flavoring agents
From 2007	Jams, fruit jellies, marmalades, fruit or nut puree and fruit or nut pastes, obtained by cooking, whether or not containing added sugar or other sweetening matter, that are made with the use of genetically engineered or modified (transgenic) organisms and (or) are (according to the manufacturer's (producer's) documents) specialized foodstuffs, biologically active dietary supplements or raw material for their production, organic products, food additives, complex food additives, flavoring agents
From 2008	Fruit, nuts and other edible parts of plants, otherwise prepared or preserved, whether or not containing added sugar or other sweetening matter or spirit, not elsewhere specified or included, that are made with the use of genetically engineered or modified (transgenic) organisms and (or) are (according to the manufacturer's (producer's) documents) specialized foodstuffs, biologically active dietary supplements or raw material for their production, organic products, food additives, complex food additives, flavoring agents
From 2009	Fruit juices (including grape must) and vegetable juices, unfermented and

Commodity classification in accordance with the FEACN CU code	Commodity short name *
	not containing added spirit, whether or not containing added sugar or other sweetening matter, that are made with the use of genetically engineered or modified (transgenic) organisms and (or) are (according to the manufacturer's (producer's) documents) specialized foodstuffs, biologically active dietary supplements or raw material for their production, organic products, food additives, complex food additives, flavoring agents
Group 21 Miscellaneous edible preparations	
From 2101	Extracts, essences and concentrates, of coffee, tea or mate and preparations with a basis of these products or with a basis of coffee, tea or mate, that are made with the use of genetically engineered or modified (transgenic) organisms and (or) are (according to the manufacturer's (producer's) documents) specialized foodstuffs, biologically active dietary supplements or raw material for their production, organic products, food additives, complex food additives, flavoring agents ; roasted chicory and other roasted coffee substitutes, and extracts, essences and concentrates thereof, that are made with the use of genetically engineered or modified (transgenic) organisms and (or) are (according to the manufacturer's (producer's) documents) specialized foodstuffs, biologically active dietary supplements or raw material for their production, organic products, food additives, complex food additives, flavoring agents
2102	Yeasts (active or inactive); other single-cell micro-organisms, dead (but not including vaccines of heading 3002); prepared baking powders
From 2103	Sauces and preparations therefor, that are made with the use of genetically engineered or modified (transgenic) organisms and (or) are (according to the manufacturer's (producer's) documents) specialized foodstuffs, biologically active dietary supplements or raw material for their production, organic products, food additives, complex food additives, flavoring agents ; mixed condiments and mixed seasonings, that are made with the use of genetically engineered or modified (transgenic) organisms and (or) are (according to the manufacturer's (producer's) documents) specialized foodstuffs, biologically active dietary supplements or raw material for their production, organic products, food additives, complex food additives, flavoring agents ; mustard flour and prepared mustard, that are made with the use of genetically

Commodity classification in accordance with the FEACN CU code	Commodity short name *
	engineered or modified (transgenic) organisms and (or) are (according to the manufacturer's (producer's) documents) specialized foodstuffs, biologically active dietary supplements or raw material for their production, organic products, food additives, complex food additives, flavoring agents
From 2104	Soups and broths and preparations therefor, that are made with the use of genetically engineered or modified (transgenic) organisms and (or) are (according to the manufacturer's (producer's) documents) specialized foodstuffs, biologically active dietary supplements or raw material for their production, organic products, food additives, complex food additives, flavoring agents; homogenised composite food preparations, that are made with the use of genetically engineered or modified (transgenic) organisms and (or) are (according to the manufacturer's (producer's) documents) specialized foodstuffs, biologically active dietary supplements or raw material for their production, organic products, food additives, complex food additives, flavoring agents
From 2105 00	Ice cream and other edible ice, whether or not containing cocoa, that are made with the use of genetically engineered or modified (transgenic) organisms and (or) are (according to the manufacturer's (producer's) documents) specialized foodstuffs, biologically active dietary supplements or raw material for their production, organic products, food additives, complex food additives, flavoring agents
From 2106	Food preparations not elsewhere specified or included, that are made with the use of genetically engineered or modified (transgenic) organisms and (or) are (according to the manufacturer's (producer's) documents) specialized foodstuffs, biologically active dietary supplements or raw material for their production, organic products, food additives, complex food additives, flavoring agents
Group 22 Beverages, spirits and vinegar	
2201 10	Mineral waters and aerated waters
2202	Waters, including mineral waters and aerated waters, containing added sugar or other sweetening matter or flavoured, and other non-alcoholic beverages, not including fruit or vegetable juices of heading 2009

Commodity classification in accordance with the FEACN CU code	Commodity short name *
2203 00	Beer made from malt
2204	Wine of fresh grapes, including fortified wines; grape must other than that of heading 2009
2205	Vermouth and other wine of fresh grapes flavoured with plants or aromatic substances
2206 00	Other fermented beverages (for example, cider, perry, mead); mixtures of fermented beverages and mixtures of fermented beverages and non-alcoholic beverages, not elsewhere specified or included
2208	Undenatured ethyl alcohol of an alcoholic strength by volume of less than 80 % vol; spirits, liqueurs and other spirituous beverages
From 2209 00	Substitutes for vinegar obtained from acetic acid, that are food additives, complex food additives
Group 25 Salt; sulphur; earths and stone; plastering materials, lime and cement	
From 2501 00 91	Salt suitable for human consumption, which is specialized foodstuff according to the manufacturer's (producer's) documents.
Group 29 Organic chemicals	
From 2915	Saturated acyclic monocarboxylic acids and their anhydrides, halides, peroxides and peroxyacids; their halogenated, sulphonated, nitrated or nitrosated derivatives
From 2916	Unsaturated acyclic monocarboxylic acids, cyclic monocarboxylic acids, their anhydrides, halides, peroxides and peroxyacids; their halogenated, sulphonated, nitrated or nitrosated derivatives
From 2917	Polycarboxylic acids, their anhydrides, halides, peroxides and peroxyacids; their halogenated, sulphonated, nitrated or nitrosated derivatives
From 2918	Carboxylic acids with additional oxygen function and their anhydrides, halides, peroxides and peroxyacids; their halogenated, sulphonated, nitrated or nitrosated derivatives

Commodity classification in accordance with the FEACN CU code	Commodity short name *
From 2919	Phosphoric esters and their salts, including lactophosphates; their halogenated, sulphonated, nitrated or nitrosated derivatives
From 2920	Esters of other inorganic acids of non-metals (excluding esters of hydrogen halides) and their salts; their halogenated, sulphonated, nitrated or nitrosated derivatives
From 2921	Amine-function compounds
From 2922	Oxygen-function amino-compounds
From 2923	Quaternary ammonium salts and hydroxides; lecithins and other phosphoaminolipids, whether or not chemically defined
From 2924	Carboxamide-function compounds; amide-function compounds of carbonic acid
From 2925	Carboxyimide-function compounds (including saccharin and its salts) and imine-function compounds
From 2926	Nitrile-function compounds
From 2927 00 000 0	Diazo-, azo- or azoxy-compounds
From 2928 00	Organic derivatives of hydrazine or of hydroxylamine
From 2929	Compounds with other nitrogen function
From 2930	Organo-sulphur compounds
From 2931 00	Other organo-inorganic compounds
From 2932	Heterocyclic compounds with oxygen hetero-atom(s) only
From 2933	Heterocyclic compounds with nitrogen hetero-atom(s) only
From 2934	Deleted - Decision of the Customs Union Commission No 341 of 17.08. 2010.
From 2935 00	Sulphonamides

Commodity classification in accordance with the FEACN CU code	Commodity short name *
From 2936	Provitamins and vitamins, natural or reproduced by synthesis (including natural concentrates), derivatives thereof used primarily as vitamins, and intermixtures of the foregoing, whether or not in any solvent, used for manufacturing of biologically active dietary supplements and foodstuffs (as amended by Decision of the Customs Union Commission No 432 of 14.10.2010)
Group 32 Tanning or dyeing extracts; tannins and their derivatives; dyes, pigments and other colouring matter; paints and varnishes; putty and other mastics; inks	
3201	Deleted - Decision of the Customs Union Commission No 341 of 17.08.2010
3202	Synthetic organic tanning substances; inorganic tanning substances; tanning preparations, whether or not containing natural tanning substances; enzymatic preparations for pre-tanning
3203 00	Colouring matter of vegetable or animal origin (including dyeing extracts but excluding animal black), whether or not chemically defined; preparations as specified in note 3 to this group based on colouring matter of vegetable or animal origin, used for food coloring (as amended by Decision of the Customs Union Commission No 341 of 17.08.2010)
3204	Synthetic organic colouring matter, whether or not chemically defined; preparations as specified in note 3 to this group based on synthetic organic colouring matter; synthetic organic products of a kind used as fluorescent brightening agents or as luminophores, whether or not chemically defined
3205 00 000 0	Colour lakes; preparations as specified in note 3 to this group based on colour lakes
From 3206 From 3207	Other colouring matter; preparations as specified in note 3 to this group , other than those of heading 3203, 3204 or 3205; inorganic products of a kind used as luminophores, whether or not chemically defined: primers, pigments, paints, enamels, water-based paints, putties, mastics

Commodity classification in accordance with the FEACN CU code	Commodity short name *
From 3212 From 3214	
3208	Paints and varnishes (including enamels and lacquers) based on synthetic polymers or chemically modified natural polymers, dispersed or dissolved in a non-aqueous medium; solutions as defined in note 4 to this group
3209	Paints and varnishes (including enamels and lacquers) based on synthetic polymers or chemically modified natural polymers, dispersed or dissolved in an aqueous medium
3210 00	Other paints and varnishes (including enamels, lacquers and distempers); prepared water pigments of a kind used for finishing leather
Group 33 Essential oils and resinoids; perfumery, cosmetic or toilet preparations	
From 3301	Essential oils (terpeneless or not), including concretes and absolutes; resinoids used for the manufacture of foodstuffs and perfumery and cosmetic products ; extracted oleoresins used in production of foodstuffs and perfumery and cosmetic products ; concentrates of essential oils in fats, in fixed oils, in waxes or the like, obtained by enfleurage or maceration, used in production of foodstuffs and perfumery and cosmetic products ; terpenic by-products of the deterpenation of essential oils used in production of foodstuffs and perfumery and cosmetic products ; aqueous distillates and aqueous solutions of essential oils used in production of foodstuffs and perfumery and cosmetic products
3302 10	Mixtures of odoriferous substances and mixtures (including alcoholic solutions) with a basis of one or more of these substances, of a kind used as raw materials in food industry, used for the manufacture of beverages ; other preparations based on odoriferous substances, of a kind used for the manufacture of beverages
3304	Beauty or make-up preparations and preparations for the care of the skin (other than medicaments), including sunscreen or suntan preparations; manicure or pedicure preparations
3305	Preparations for use on the hair
3306	Preparations for oral or dental hygiene, including denture fixative pastes and powders; yarn used to clean between the teeth (dental floss), in individual retail packages
From 3307	Pre-shave, shaving or aftershave preparations, personal deodorants, bath preparations, depilatories and other perfumery, cosmetic or toilet preparations, not elsewhere specified or included; prepared room deodorisers, whether or not perfumed or having disinfectant properties
Group 34 Soap, organic surface-active agents, washing preparations, lubricating preparations,	

Commodity classification in accordance with the FEACN CU code	Commodity short name *
artificial waxes, prepared waxes, polishing or scouring preparations, candles and similar articles, modelling pastes, “dental waxes” and dental preparations with a basis of plaster	
from 3401	Toilet soap in the form of bars, cakes, moulded pieces or shapes, not containing medicinal preparations; soap in other forms; organic surface-active products and preparations for washing the skin, in the form of liquid or cream and put up for retail sale, whether or not containing soap
3402 20	Organic surface-active agents (other than soap); surface-active preparations, washing preparations (including auxiliary washing preparations) and cleaning preparations, whether or not containing soap (other than those of heading 3401); put up for retail sale
3402 90	Organic surface-active agents (other than soap); surface-active preparations, washing preparations (including auxiliary washing preparations) and cleaning preparations, whether or not containing soap (other than those of heading 3401); other
From 3403	Preparations of a kind used for the oil or grease treatment of textile materials, leather, furskins or other materials, containing petroleum oils or oils obtained from bituminous minerals
3405 40 000 0	Scouring pastes and powders and other scouring preparations
Group 35 Albuminoidal substances; modified starches; glues; enzymes	
From 3501	Casein, caseinates and other casein derivatives; casein glues used in the manufacture of foodstuffs
From 3502	Albumins (including concentrates of two or more whey proteins, containing by weight more than 80 % whey proteins, calculated on the dry matter), albuminates and other albumin derivatives, used in the manufacture of foodstuffs
From 3503 00	Gelatin (including gelatin in rectangular (including square) sheets, whether or not surface-worked or coloured) and gelatin derivatives, used in the manufacture of foodstuffs ; isinglass used in the manufacture of foodstuffs ; other glues of animal origin, other than casein glues of heading 3501, used in the manufacture of foodstuffs
From 3504 00 000	Peptones and their derivatives, used in the manufacture of foodstuffs ; other protein substances and their derivatives, not elsewhere specified or included, used in the manufacture of foodstuffs ; hide powder, whether or

Group 96 Miscellaneous manufactured articles	
9603 21 000 0	Toothbrushes, including dental-plate brushes

* For the purposes of using the present list it is necessary to be guided by both the FEACN CU code and the product name.

** Footnote deleted - Decision of the Customs Union Commission No 432 of 14.10.2010

Note. In accordance with the List, only products specified in the product groups at the beginning of Part II of the Single List, and at the same time specified in the descriptions of FEACN CU headings, with corresponding exceptions and reservations, are subject to state registration.

Thus, salts and esters from headings 2915, 2916, 2917, 2918 of the subheadings listed below, included in the Commodity Nomenclature of Foreign Economic Activity of the Customs Union (FEACN CU), are not subject to state registration:

2915 12 000 0, 2915 13 000 0, 2915 24 000 0, salts and esters from 2915 29 000 0, 2915 31 000 0, 2915 32 000 0, 2915 33 000 0, 2915 36 000 0, salts and esters from 2915 39 , 2915 39 100 0, 2915 39 300 0, 2915 39 500 0, 2915 39 800 0, salts and esters from 2915 40 000 0, salts and esters from 2915 50 000 0, salts and esters from 2915 60 110 0, 2915 60 190 0, salts and esters from 2915 60 900 0, salts and esters from 2915 70: 2915 70 200 0, 2915 70 300 0, 2915 70 800 0, salts and esters from 2915 90, salts and esters from 2915 90 800 0;

salts of acrylic acid from 2916 11 000 0, 2916 12 acrylic acid esters (2916 12 100 0, 2916 12 200 0, 2916 12 900 0), salts from 2916 13 000; 2916 14, salts and esters from 2916 15 000 0, salts and esters from 2916 19 100, salts and esters from 2916 31 000 0, salts from 2916 34 000 0, 2916 35 000 0, salts and esters from 2916 39 000 0;

salts and esters from 2917 11 000 0, 2917 12: salts from 2917 12 100 0, 2917 12 900 0, salts and esters from 2917 13 900 0, salts and esters from 2917 19 (salts and esters from 2917 19 100 and from 2917 19 900 0), 2917 32 000 0, 2917 33 000 0, 2917 34 000 0, salts from 2917 36 000, 2917 37

000, salts and esters from 2917 39 (2917 39 110 0, salts and esters from 2917 39 190 0, salts and esters from 2917 39 800 0);

salts and esters from 2918 11 000 0, salts and esters from 2918 13 000 0, salts and esters from 2918 15 000 0, salts and esters from 2918 16 000 0, salts and esters from 2918 19 (salts and esters from 2918 19 300 0, salts and esters from 2918 19 850 0), salts from 2918 21 000 0, salts and esters from 2918 22 000 0, 2918 23, salts and esters from 2918 29 (salts and esters from 2918 29 100 0, salts and esters from 2918 29 300 0, salts and esters from 2918 29 800 0); salts and esters from 2918 30 000 0, salts and esters from 2918 91 000 0, salts and esters from 2918 99.

As for heading 3302 10, odoriferous substances and their mixtures used in food industry or for the manufacture of beverages, as appears from the group name, are subject to state registration; other substances from the stated heading are not subject to state registration.

As for heading 3403, only preparations used for the oil or grease treatment of textile materials, leather and furskins are subject to state registration.

(note was added by Decision of the Customs Union Commission No 432 of 14.10.2010)

Part III.

LIST

of goods which do not require submitting a state registration certificate, regardless of the FEACN CU code assigned in accordance with the List of goods subject to state registration*

* The present List covers goods included in Part II of the Single List of goods subject to sanitary-and-epidemiologic supervision (control) at the customs border and on the customs territory of the Customs Union.

(note added by Decision of the Customs Union Commission No 341 of 17.08.2010)

- product samples intended for sanitary-and-epidemiologic expertise with the purpose of obtaining a state registration certificate;

- non-tobacco raw materials, non-tobacco stuffs and ingredients used for manufacture of tobacco goods;

(as amended by Decision of the Customs Union Commission No 341 of 17.08.2010)

- goods intended for use as laboratory reagents, laboratory glassware (except radiation-dangerous and containing native infective material);

- food raw material (chicken eggs, goose eggs, etc.) used for preparation of nutrient media;

paragraph deleted - Decision of the Customs Union Commission No 432 of 14.10.2010;

paragraph deleted - Decision of the Customs Union Commission No 341 of 17.08.2010;

- souvenirs, cosmetic accessories;

(as amended by Decision of the Customs Union Commission No 341 of 17.08.2010)

- products manufactured on the territory of the Customs Union against orders and normative and technical documentation of foreign companies and intended for sale outside its territory;

- exhibition and advertising samples of products not intended for sale and use on the Customs Union customs territory;

- second-hand products including those sold in shops and departments of commission trade;

- collections made by students of educational institutions, intended for participation in national and international festivals;

- supplies exceeding norms established in accordance with part 1 of Clause 4 of Article 363 of the Customs Code of the Customs Union, subject to submitting for customs procedures;

(added by Decision of the Customs Union Commission No 341 of 17.08.2010)

- goods sold through duty free shops and submitted for customs treatment of free trade;

(added by Decision of the Customs Union Commission No 432 of 14.10.2010)

- humanitarian aid.

(added by Decision of the Customs Union Commission No 456 of 18.11.2010)
